

OPERATOR'S MANUAL HYDRAULIC SLIDING PALLET FORKS

Model PF55K48WT48-HYD Serial Number 16142-

Manual# 96339 OCT 2021 ENGLISH

COPYRIGHT © 2021 MESSER REPAIR AND FABRICATING, LLC SAUK CENTRE, MN PRINTED IN USA ALL RIGHTS RESERVED

Introduction

Using This Manual

Your loader operator's manual contains instructions to safely operate the loader. Anyone who operates a loader with this attachment installed must first read, understand and follow the instructions in the loader operator's manual.

This manual contains instructions to safely operate and service the attachment. Anyone who operates or services the attachment must first read, understand and follow the instructions in this manual.

Additional operating or servicing information for the attachment may be provided online, in video, or in other publications. This additional information does not replace, and is not a substitute for reading and following, the instructions in this manual.

The safety alert symbol is shown in WARNING statements to alert users to hazards which could cause death or injury. Carefully read and follow the messages.

IMPORTANT notices alert users to instructions which, if not followed, could result in damage. Carefully read and follow the messages.

There may be times when the attachment and loader shown in this manual may not be your exact model. The model shown will be close enough to your attachment or loader to accurately convey the information.

The most current information available is included in this manual. The publisher may revise this manual at any time and is not required to notify users of revisions.

Replacement Manuals

Be sure to include this operator's manual if you sell or transfer ownership of the attachment.

Contact Messer Repair and Fabricating, LLC for a printed manual, or find a downloadable manual on our website.

Using This Attachment

The attachment is designed for use transporting pallets with loads.

The attachment is designed for installation on a full-size loader, connected to the loader's front auxiliary hydraulic couplers.

The manufacturer reserves the right to make improvements, and to discontinue or change specifications, models or design without notice and

Introduction

without incurring obligation.

Loader Compatibility

Confirm your loader's Rated Operating Capacity (ROC) in the loader operator's manual. Confirm your attachment's ROC in SPECIFICATIONS in this manual.

Do not install the attachment on the loader if the combined weight of the attachment and attachment load will exceed the loader ROC during operation because this may cause difficulty in controlling the loader or may cause loader damage.

Do not exceed the attachment's ROC because this may damage the attachment.

Attachment compatibility with your loader should be confirmed before the intitial purchase. If you receive the attachment as part of a later resale or transfer of ownership, contact the manufacturer to confirm the attachment is designed to be used with your loader before you install the attachment.

Product Misuse

Product misuse can cause accidents, injury and death.

The manufacturer of the attachment is not responsible for any harm or injury resulting from product misuse.

Product misuse includes operating or servicing the attachment without following the instructions in this manual and in the loader manuals, using the attachment in any way for which it was not designed, neglecting to confirm loader compatibility, and modifying the attachment.

Modifications

Do not modify the attachment in any way.

Manufacturer Contact

Call Messer Repair and Fabricating, LLC at (833) 352-3477, or see us at www.messerrepair.com.

Safety Decals

STAND CLEAR DECAL 96028

STAND CLEAR WHILE IN OPERATION

CAUTION DECAL 96109

PINCH POINT

WARNING DECAL 96117

HIGH PRESSURE FLUID HAZARD To prevent serious injury or death:

- Relieve pressure on system before repairing, adjusting or disconnecting.
- Wear proper hand and eye protection when searching for leaks. Use wood or cardboard instead of hands.
- Keep all components in good repair.

Wear Protective Equipment

- Wear gloves to protect hands from burns if hydraulic couplers become hot during operation.
- Never wear sandals or other light footwear when operating or servicing the attachment. Wear protective footwear when handling blades or heavy parts.
- Do not wear loose fitting clothing which may become entangled when operating or servicing the attachment.

Parking Safely

- 1. Follow the instructions in the loader operator's manual to park the loader safely.
- 2. Fully lower the attachment to level ground.
- 3. Stop the loader engine and remove the key from the switch.
- 4. Do not leave the loader operator seat until the engine and all other moving loader and attachment parts have stopped.
- 5. Follow the instructions in the loader operator's manual to exit the loader safely. Use the attachment step area if one is provided.

Operating Attachments Safely

- Always be aware of the weight of any loads you are transporting with an attachment. The weight of any load must not exceed the attachment's Rated Operating Capacity. The weight of the attachment combined with the attachment load must not exceed the loader's Rated Operating Capacity.
- Do not allow anyone to operate the attachment unless they have first read and understood the loader and the attachment operator's manuals.
- Do not allow anyone to operate the attachment unless they have first read and understood the safety and warning decals on the loader and on the attachment.
- The attachment owner is responsible for training others to safely operate the attachment, and is responsible for any injuries or harm which occurs while the attachment is being operated.
- If an area to step on the attachment has been provided, be sure to use it when entering and exiting the loader.

- Before operating, replace any worn or damaged safety decals.
- Before operating, thoroughly inspect the attachment to be sure all hardware (bolts, nuts, etc.) is installed and tightened.
- Before operating, thoroughly inspect the attachment to be sure it is in working order. If the attachment is damaged or otherwise not in working order, do not operate until it has been repaired by a qualified technician.
- Before raising or lowering the attachment be sure the area is clear of bystanders.
- Do not operate the loader or the attachment if you are under the influence of alcohol, drugs, or medications which may cause drowsiness.
- Do not allow children to operate the loader or the attachment.
- Do not allow anyone who has not been trained to operate the loader or the attachment.
- Never allow riders on the attachment.
- Keep hands, feet or other objects away from underneath the attachment while operating.
- Fully lower the attachment to level ground when you are done operating.
- Never leave the attachment unattended while in a raised position.
- When transporting the attachment installed on the loader, travel at a slower speed to maintain control.

Using Pallet Forks Safely

- Never allow bystanders or animals to stand between the fork tines when operating the attachment.
- Always position the fork tines as far apart as possible in the pallet to keep the load balanced and stable.
- Always secure loads on pallets to prevent tipping or rolling off.
- Constantly check your travel area to be sure it is clear of bystanders or objects. Use rear-view mirror, if equipped, when traveling in reverse. If installed, loader backup alarm must be working before traveling in reverse.

Servicing Safely

- Disconnect the attachment hydraulic hoses from the loader before servicing. Do not service the attachment when the hydraulic hoses are installed on the loader.
- Remove the attachment from the loader before servicing when instructed to do so in this manual.
- Do not allow anyone to service the attachment unless they have first read and understood the loader and the attachment operator's or service manuals.
- Do not allow anyone to service the attachment unless they have first read and understood the safety and warning decals on the loader and on the attachment.
- The attachment owner is responsible for training others to safely service the attachment, and is responsible for any injuries or harm which occurs while the attachment is being serviced.
- Before inspecting or servicing the attachment, follow the Parking Safely instructions in this manual and disconnect the attachment hydraulic hoses from the loader.
- Always securely block the attachment to prevent accidental release of the lifting mechanism when inspecting or servicing the attachment.

Hydraulic Fluid Safety

- Read and understand the hydraulic safety information in the loader operator's manual before operating or servicing the attachment.
- Use cardboard or a board when you check for a leak.
- Fluid in hydraulic hoses is under extreme pressure. If fluid is injected into your skin seek medical treatment immediately.
- Do not handle any hydraulic components until pressure has been relieved from the system.
- Disconnect the attachment hydraulic hoses from the loader before inspection or service.
- Inspect attachment hydraulic hoses and hose shields for damage or wear before attaching to the loader.

Safety Decals

Safety decals may be installed on the attachment to warn users of safety hazards:

- DANGER decals provide warnings about hazardous situations which will result in death or serious injury if not avoided.
- WARNING decals provide warnings about hazardous situations which could result in death or serious injury if not avoided.
- CAUTION decals provide warnings about hazardous situations which could result in injury if not avoided.

Read and understand all safety decals before operating or servicing the attachment.

See the Decal Locations illustration in this manual to confirm where decals are installed on the attachment.

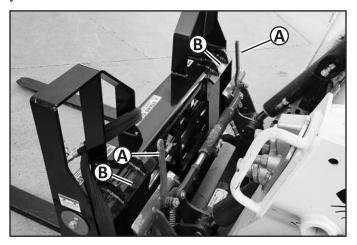

Safety decals which are missing, worn or faded must be replaced. Replacement safety decal part numbers are included in this manual. Contact the attachment manufacturer for replacement decals.

Preparing for Installation

- 1. Check the loader and attachment hydraulic couplers to be sure the surfaces are clean before connecting.
- 2. Inspect the couplers for damage or wear and replace if needed for proper connection.

Installing the Attachment

- 1. Follow the instructions in the loader operator's manual to install the attachment and exit the operator station safely.
- 2. Fully lower the loader lift arms.

Loader attaching plate levers which are operated manually may have spring tensioning. Firmly grasp the levers and move the levers slowly.

3. Move the loader attaching plate levers (A) to the unlocked (up) position either manually or by using the loader controls.

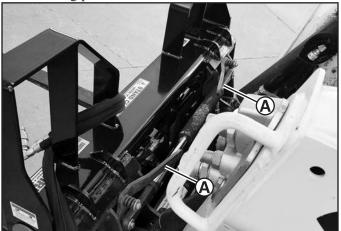

IMPORTANT

AVOID DAMAGE!

Attaching plate levers may be damaged if they strike the attachment. Be sure the attaching plate levers do not hit the attachment during installation.

- 4. Tilt the loader attaching plate forward, and drive the loader forward until the top edge of the loader attaching plate is under the top flange (B) of the attachment mounting frame.
- 5. Raise the loader lift arms slightly until the attaching plate is fully seated under the top flange.

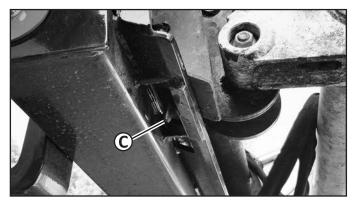

- 7. Move the loader attaching plate levers (A) to the locked (fully down) position either manually or by using the loader controls.
- 8. Park the loader. (See Parking Safely in this manual.)

IMPORTANT

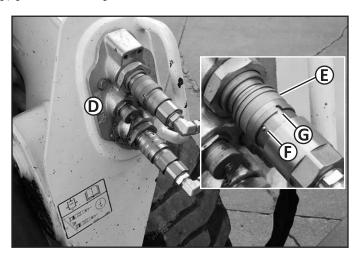

AVOID DAMAGE!

The attachment may come off the loader if it is not secured to the attaching plate. The attaching plate pins or wedges must be extended into the attachment with the levers fully down.

Picture Note: Wedge on left side of attachment shown. Check the wedges or pins on both sides of the attachment.

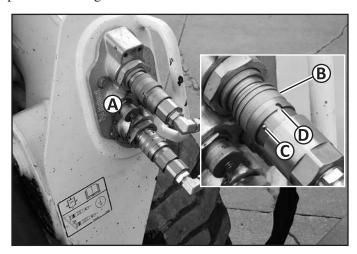

9. Check to be sure the loader attaching plate pins or wedges (C) extended into the holes in the bottom of the attachment mounting frame. If not, move the loader attaching plate levers to the unlocked (up) position and repeat installation.

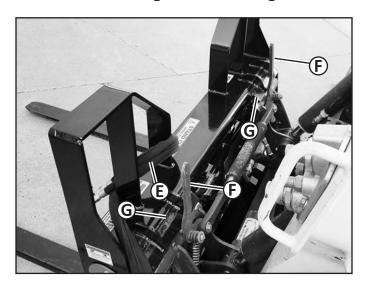

- 10. Connect the attachment hydraulic hoses to the loader's front auxiliary couplers (D).
 - a. Install the male couplers into the female couplers and pull or push the sleeves (E) to be sure they are locked into place.
 - b. Rotate the coupler sleeves as shown so the ball (F) is outside the groove (G) to prevent the coupler disconnecting (Some sleeves may not have this locking mechanism).

Removing the Attachment

- 1. Follow the instructions in the loader operator's manual to remove the attachment and exit the operator station safely.
- 2. Fully lower the loader lift arms and the attachment to level ground.
- 3. Follow instructions in the loader operator's manual to relieve hydraulic pressure in the front auxiliary hydraulic coupler lines.
- 4. Stop the loader engine.

- 5. Disconnect the attachment hydraulic hoses from the loader's front auxiliary couplers (A).
 - a. Rotate the coupler sleeves (B) so the ball (C) is aligned with the groove (D) to allow the coupler to disconnect (Some sleeves may not have this locking mechanism).
 - b. Grasp and push or pull the sleeves to disconnect the couplers.

6. Install protective caps on the couplers if they are provided, and wrap the hydraulic hoses (E) around the backface as shown.

WARNING

AVOID INJURY!

Loader attaching plate levers which are operated manually may have spring tensioning. Firmly grasp the levers and move the levers slowly.

- 7. Move the loader attaching plate levers (F) to the unlocked (up) position as shown either manually or by using the loader controls.
- 8. Tilt the loader attaching plate forward slightly and drive the loader backward until the top edge of the attaching plate clears the top flange (G) of the attachment mounting frame.

Operating

Pre-Operation Inspection

Before starting operation, inspect the area you will be operating in and inspect the attachment.

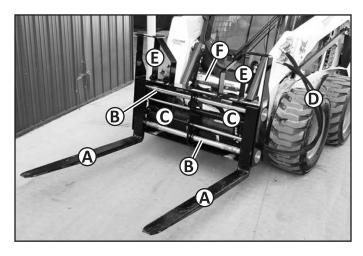

Inspect the Work Area

1. Confirm the area is clear of bystanders including animals. Establish a safety zone by keeping bystanders and animals beyond a 100 foot radius around the attachment when operating.

Inspect the Attachment

1. Inspect the attachment to be sure it is in working order. If the attachment is damaged or not in working order, do not operate until it has been repaired by a qualified technician.

Description

A - Fork Tine D - Hydraulic Hoses

B - Rail Shaft E - Backface
C - Hydraulic Cylinder F - Step Area

Theory of Operation

The Hydraulic Sliding Pallet Forks hydraulic hoses are connected to the loader front auxiliary hydraulic couplers. The loader's hydraulic controls are used to extend or retract the hydraulic cylinders, which move the fork tines further apart or closer together.

Operating

Operation

- 1. Follow the instructions in INSTALLING AND REMOVING to install the attachment.
- 2. Park the loader. (See Parking Safely in this manual.)
- 3. Perform the pre-operation inspection.

Lifting the Pallet With Load

- 1. Follow the instructions in INSTALLING AND REMOVING to install the attachment.
- Confirm the load on the pallet will not exceed the attachment's or the loader's Rated Operating Capacity. Reduce the load weight if needed.
- 3. Check to be sure the load on the pallet is balanced in the center of the pallet and is secure.

- 4. Approach the pallet and use the loader's hydraulic controls to position the fork tines to drive forward under the pallet.
- 5. Drive into the pallet as far as possible.
- 6. Position the forks as far apart as possible within the pallet to balance the load on the fork tines.
- 7. Lift the pallet slightly and tilt the atttachment back.
- 8. Raise the pallet from the ground only as far as needed to travel with the load.

Traveling With the Pallet With Load

1. If the load on the pallet is high enough to block your view when traveling forward, travel in reverse direction.

Operating

- 2. Keep the load tilted back and raised from the ground only as far as needed for travel.
- 3. Travel slowly, and watch for any bystanders or objects in your travel area.
- 4. Stop travel before raising or lowering the pallet.

Removing the Pallet With Load

- 1. Stop travel.
- 2. Raise the pallet to the desired height.
- 3. Move forward slowly. Tilt the attachment forward to level, and lower the pallet until the load is off the fork tines.
- 4. Check behind for bystanders or objects in your travel area and back slowly.

5. Confirm the fork tines (A) have cleared the pallet before you fully lower the attachment.

Transporting the Attachment

On the Loader

Check to be sure the attachment is correctly installed on the loader before hauling the loader on a trailor or truck. Follow all loader, truck or trailer operator's manual instructions to safely haul the loader.

Hauling the Attachment

Follow all truck or trailer operator's manual instructions to securely fasten the attachment to the truck or trailer with straps or chains.

Service Intervals

Every 8 hours or daily:

- Grease the shafts and cylinder mount pins.
- Grease the cylinder mount pins.
- Inspect the attachment and hoses for damage and wear. Replace parts as needed.
- Check and tighten all hardware.

Lubrication

Recommended Grease

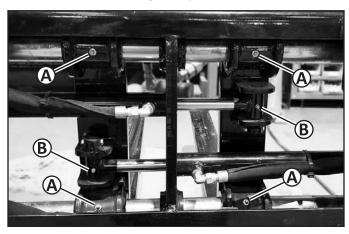

Standard Lithium

Lubricating the Shafts and the Cylinder Mount Pins

1. Use the loader hydraulic controls to move the fork tines as close together as possible.

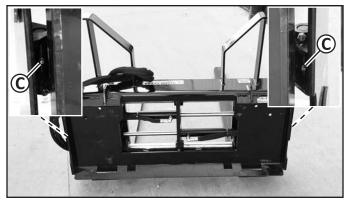

- 2. Remove the attachment from the loader.
- 3. Park the loader. (See Parking Safely in this manual.)

4. Lubricate the four grease zerks (A) on the fork tines until grease

appears in the joints.

5. Lubricate the two grease zerks (B) on the cylinder rod ends until grease appears in the joints.

6. Lubricate the two grease zerks (C) on the cylinder base ends until grease appears in the joints.

Replacing the Hydraulic Hoses

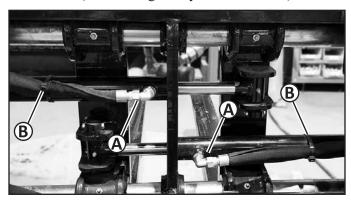

WARNING

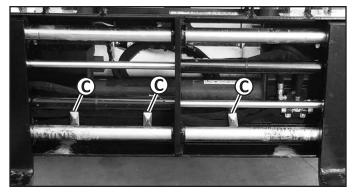

AVOID INJURY!

Remove the attachment from the loader before servicing.

- 1. Remove the attachment from the loader.
- 2. Park the loader. (See Parking Safely in this manual.)

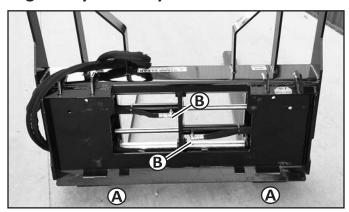

- 3. Disconnect and remove the hydraulic hose (A) from the cylinder.
- 4. Remove the tie straps (B).

- 5. Remove the hose retainers (C) and remove the hose.
- 6. Connect the new hose to the cylinder.
- 7. Install the hose retainers on both hoses.
- 8. Install tie straps to secure the hose to the cylinder.

Replacing the Hydraulic Cylinders

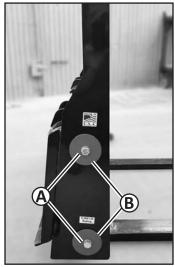

1. Use the loader hydraulic controls to position the fork tines as shown.

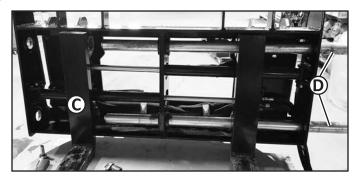

- 2. Remove the attachment from the loader.
- 3. Park the loader. (See Parking Safely in this manual.)
- 4. Secure the attachment with a lifting device, or block the bottom of the mounting plate (A), to avoid tipping over while servicing.
- 5. Disconnect the fitting (B) with the hose from the cylinder.

Remove the Shafts

- 1. Lubricate the four grease zerks on the fork tines.
- 2. Clean both shafs and apply light grease with a cloth.

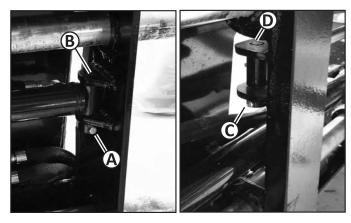

3. Remove the bolts (A), lockwashers, and shaft washers (B) from the right side of the frame.

4. Secure the right fork tine (C) as you slide the shafts (D) to the side to remove them from the right fork tine.

Removing the Top Cylinder

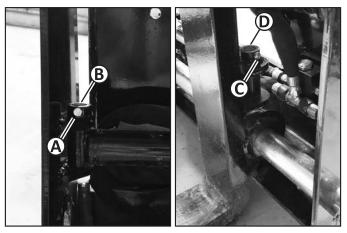

- 1. Remove the bolt (A) and nut from the cylinder base end.
- 2. Remove the pin (B) from the cylinder base end.
- 3. Remove the bolt (C) and nut from the cylinder rod end.
- 4. Remove the pin (D) from the cylinder rod end, and remove the cylinder.

Note: If replacing the bottom cylinder, you will need to remove the top cylinder first to make room to remove the mount pins from the bottom cylinder.

Removing the Bottom Cylinder

1. Remove the top cylinder.

- 2. Remove the bolt (A) and nut from the cylinder base end.
- 3. Remove the pin (B) from the cylinder base end.
- 4. Remove the bolt (C) and nut from the cylinder rod end.
- 5. Remove the pin (D) from the cylinder rod end, and remove the cylinder

Complete Installation

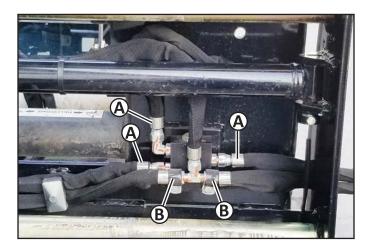

- 1. Attach the base end of the bottom cylinder to the attachment frame with the pin, bolt and nut.
- 2. Attach the base end of the top cylinder to the attachment frame with the pin, bolt and nut.
- 3. Slide the shafts through the mounts on the fork tines and into the mounting holes on the frame.
- 4. Slide the tines to position the cylinder rod ends for installation.
- 5. Attach the rod end of both cylinders to the fork tines with the pins, bolts and nuts.
- 6. Install the shaft washers, bolts and lockwashers in the shafts.
- 7. Attach the hydraulic hoses to the cylinders.
- 8. Install tie straps as needed.

Replacing the Flow Divider Cartridge

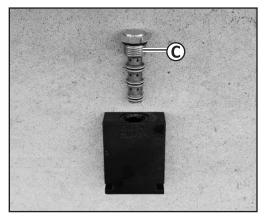

1. Use the loader hydraulic controls to move the fork tines as close together as possible for easy access to the flow divider.

- 2. Remove the attachment from the loader.
- 3. Park the loader. (See Parking Safely in this manual.)

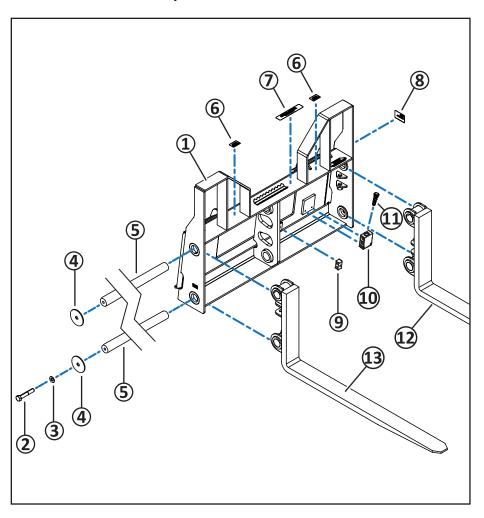

- 4. Disconnect the three hoses (A) from the flow divider.
- 5. Remove the hardware attaching the two hose clamps (B) to the attachment frame, and remove the flow divider.

- 6. Remove the cartridge (C) from the flow divider.
- 7. Install the new cartridge.
- 8. Install the flow divider on the attachment frame with the hose clamps and hardware.
- 9. Connect the three hoses to the flow divider.

Troubleshooting

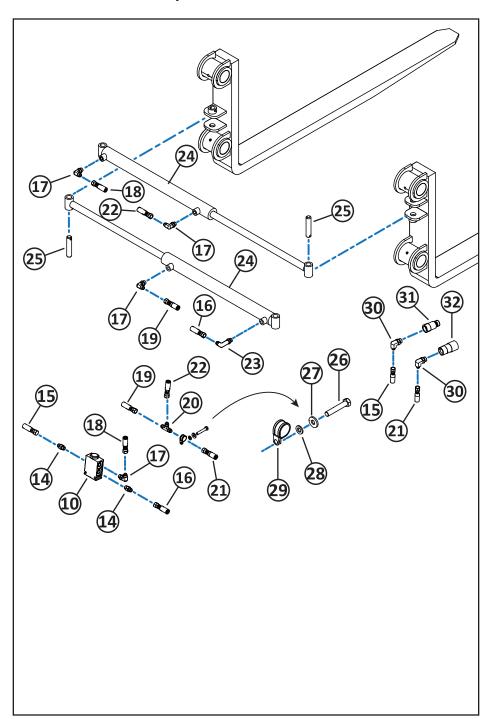

Problem	Action	
Fork tines won't slide on the shafts.	1.	Check to be sure the attachment hydraulic couplers are fully connected.
	2.	See the loader operator manual to check loader hydraulic pressure and flow.
	3.	Replace the flow divider cartridge.
Fork tines won't slide	1.	Lubricate the shafts.
evenly (one moves more quickly than the other).	2.	Replace the flow divider cartridge.

Replacement Parts

Contact Messer Repair and Fabricating, LLC for replacement parts. Part numbers may change without notice.

Item	Qty.	Part Number	Part Description

Warranty

MESSER REPAIR & FABRICATING, LLC

Limited Warranty and Terms and Conditions of Sale

The following limited warranty, and terms and conditions of sale (the "Limited Warranty") apply to all equipment, products, parts, and goods (any of the foregoing are referred to herein as "Equipment") sold by Messer Repair & Fabricating, LLC ("Messer"):

- 1. <u>Covers All Equipment</u>. Each purchase of Equipment by a purchaser is expressly made conditional on purchaser's assent to the terms and conditions in this Limited Warranty.
- 2. <u>Limited Warranty</u>. Messer warrants that for a period of 24 months from the date of purchase, the Equipment will remain free from defects in material and workmanship under normal use and proper maintenance. Messer's obligation under the warranty shall be limited to the repair or replacement (at Messer's option) of the Equipment. Notwithstanding the foregoing, if the Equipment is used for commercial purposes or is rented or leased out by the purchaser, then, the foregoing warranty shall only be for a period of 180 days and not 24 months.
- 3. No Warranty For Equipment Components From Third Parties. Notwithstanding the limited warranty terms set forth above, MESSER OFFERS NO WARRANTY WHATSOEVER WITH RESPECT TO ANY COMPONENTS OF THE EQUIPMENT MADE OR PROVIDED TO MESSER BY OTHER MANUFACTURERS, PRODUCERS, OR SELLERS (the "Purchased Components"). The sole and exclusive warranty for each the Purchased Components shall be limited to the express written warranty with respect to the Purchased Component as provided by the manufacturer, producer, or seller of such Purchased Component. Messer's responsibility and liability for the Purchased Components shall be limited to the assignment of the Purchased Components' express written warranties applicable to the Purchased Components. Purchased Components include, without limitation, the following: axles, tires and rims; trailer hitch components and jacks; hydraulic pumps, motors, cylinders and components; and bales spears, pallet tines, and bucket teeth.
- 4. No Other Warranties. THE FOREGOING REPAIR AND REPLACEMENT OBLIGATIONS IN SECTION 2 ARE IN LIEU OF ALL OTHER WARRANTIES, LIABILITIES AND OBLIGATIONS, INCLUDING ALL WARRANTIES OF MERCHANTABILITY, OF FITNESS FOR A PARTICULAR PURPOSE OR OTHERWISE, EXPRESSED OR IMPLIED IN FACT OR BY LAW, AND STATE MESSER'S ENTIRE AND EXCLUSIVE LIABILITY AND PURCHASER'S EXCLUSIVE REMEDY FOR ANY CLAIM IN CONNECTION WITH THE SALE AND PURCHASE OF EQUIPMENT (AND ALL COMPONENTS THEREOF), THEIR DESIGN, SUITABILITY FOR USE, INSTALLATION OR OPERATIONS.

Warranty

- 5. <u>Location of Warranty Repairs</u>. All warranty repairs pursuant to this Limited Warranty shall be made at Messer's corporate manufacturing plant, or other location as determined by Messer, at its discretion. Purchaser shall be responsible for and pay for any transportation expenses necessary for Limited Warranty repairs.
- 6. <u>Limited Warranty Voidable</u>. The limited warranty herein is void and deemed waived if the purchaser fails to give written notice to Messer of any alleged defect under the limited warranty herein within 20 days of its discovery; or (a) purchaser or parties other than Messer or its authorized representatives attempts to remedy or fix the alleged Equipment defects; or (b) purchaser has used the Equipment for purposes it was not intended to be used for; or (c) purchaser has not operated the Equipment in a manner consistent with Messer's instructions for the Equipment; or (d) the Equipment has been modified, altered, abused, or misused; or (e) the Equipment has been damaged pursuant to accident, fire, flood, or other Act of God.
- 7. No Consequential Damages. IN NO EVENT SHALL MESSER BE LIABLE FOR ANY DIRECT, INDIRECT, SPECIAL OR CONSEQUENTIAL DAMAGES WHATSOEVER, AND MESSER'S LIABILITY, UNDER NO CIRCUMSTANCES, WILL EXCEED THE PRICE PAID FOR THE EQUIPMENT FOR WHICH LIABILITY IS CLAIMED.
- 8. <u>Governing Law</u>. This contract shall be governed by the laws of the State of Minnesota.
- 9. Arbitration. Any controversy or claim arising out of or relating to the limited warranty provided herein, or any alleged breach thereof, shall be settled exclusively by arbitration in accordance with the Rules of the American Arbitration Association, and judgment upon the award rendered by the arbitrator may be entered in any court having jurisdiction thereof. The arbitration shall be conducted in Minneapolis, MN, by one arbitrator selected by Messer and Purchaser, or, if they cannot agree, the President of the American Arbitration Association.

Rev. 7-20
